

# Jenn Killeen

Affiliations      Classic Air Medical

I have a passion for learning and education! I began my career as a technician, basic EMT, and Emergency Department Nurse and now have almost 30 years in the field of Emergency Medicine. I have spent the last 18 years in the air medical transport industry helping patients of all ages from premature neonates, those with maternal

complications, adults on balloon pumps, and even some at end of life. I am fortunate to learn something new every day and to keep growing, and I honestly love what I do. In October, I have been selected to become part of the Air and Surface Transport Nurses Association Board, which will provide a great opportunity to influence education and certification at the industry level. I am currently working for Classic Air Medical Services as a Regional Director. My parents both grew up in New Mexico and we have a special place in our hearts for this amazing state. I currently reside in Flagstaff, Arizona with my husband and amazing 10 year old daughter.
